

Reception Newsletter – 30/11/18

Book of the week:

In maths we have continued exploring numicon. We have also been focusing on representing 1-10 through creating our own mouse count books.

We have been manipulating materials to create our own superhero mask- like the super veggies!

We have been discussing welcome and how we are welcomed into God's family, through the baptism pictures you have provided.

We have been working hard with our Christmas performance! The costumes are still coming in thick and fast. They all need to be in for Monday 3rd December please.

We have continued to discuss the meaning of Christmas through story.
